Measuring College and Career Readiness

## NEW JERSEY'S STATEWIDE ASSESSMENT PROGRAM

- 2017 marks the $3^{\text {rd }}$ administration of the Partnership for Assessment of Readiness for College and Careers (PARCC) and the second oppor tunity to compare year-to-year results.
- Students took PARCC English Language Ar ts and Literacy Assessments (ELA/L) in grades 3 - 11 .
- Students took PARCC Mathematics Assessments in grades 3 8 and in Algebra I, Geometry, and Algebra II.
- As of May 2017, HS Graduation requirements are related to PARCC (ELA 10 and Algebra I), but continue to be revisited by the NJDOE

## PARCC PERFORMANCE LEVELS

- Level 1: Not yet meeting grade-level expectations
- Level 2: Partially meeting grade-level expectations
- Level 3: Approaching grade-level expectations
- Level 4: Meeting grade-level expectations
- Level 5: Exceeding grade-level expectations

## QUESTIONS TO GUIDE REFLECTION

- What trends exists in sub-groups and in year-to-year performance?

Overall, student performance has met or exceeded the state average. SOMSD has not made significant gains in our subgroups from year to year.

- How will we use data to identify strengths and gaps that exist in our curriculum and instruction?

District and school level data: Math, ELA, Reading and Writing Also, district level and school level data teams will be fully functioning this year. Focus will be on student achievement, discipline, and attendance

- How will we use data as a tool to address areas in need of improvement or enhancement?

Disaggregate data by subgroups
Disaggregate data by standards
Data-driven instruction

## QUESTIONS TO GUIDE DATA REFLECTION

- How does student performance align with District assessment data and how does that performance influence curricular implementation?

We currently use the Teacher's college assessments in ELA
Further study is needed to determine if performance aligns with district assessment data.

- How can we introduce multiple measures of assessment in the district?

Discussion is beginning to introduce an electronic school based assessment system that will provide immediate feedback to inform teachers which skills where students are not meeting expectations.

For most grades SOMSD has a fewer \% of students scoring level 1, 2 or 3, and a higher \% of students scoring $4 \& 5$.

In $7^{\text {th }}$ grade, we have a higher percentage scoring level 1 and level 5.

DISTRICT/STATE
COMPARISON OF SOUTH ORANGE-MAPLEWOOD'S SPRING 2017 PARCC ADMINISTRATIONS
ENGLISH LANGUAGE ARTS/LITERACY TO NEW JERSEY - PERCENTAGES
Not Yet
Meeting Expectations (Level 1)

- Partially

Meeting
Expectations (Level 2)

- Approaching Expectations (Level 3)
- Meeting

Expectations
(Level 4)

Exceeding
Expectations (Level 5)

The trend continues for the high school: fewer \% of students scoring level 1, 2 or 3, and a higher \% of students scoring $4 \& 5$.

The trend continues in math (except $8^{\text {th }}$ ) SOMSD has a fewer \% of students scoring level 1,2 or 3 , and a higher $\%$ of students scoring $4 \& 5$.

For $8^{\text {th }}$ grade, SOMSD has a higher $\%$ of students scoring level 1 and level 2 than the state average. This is not reflective of our $8^{\text {th }}$ grade class as it does not include $8^{\text {th }}$ graders taking Algebra or Geometry. $34 \%$ of $8^{\text {th }}$ graders took Algebra I and $15 \%$ took Geometry.

- Not Yet Meeting Expectations (Level 1)
- Partially

Meeting Expectations (Level 2)

- Approaching Expectations (Level 3)
- Meeting

Expectations (Level 4)

Exceeding
Expectations (Level 5)

SOMSD performs significantly better than the state in Algebra I, Geometry, and Algebra II.

SOMSD ELA results for $3^{\text {rd }}, 4^{\text {th }}$, and $5^{\text {th }}$ grade continue to hover between $75-80 \%$ meeting expectations or exceeding expectations, with $10 \%$ not yet meeting or partially meeting expectations.

At the middle school ELA results decrease to about 60\% meeting or exceeding expectations, with moving toward $18-20 \%$ not yet meeting or partially meeting expectations.

High school results are hard to compare year over year as the first two years SOMSD had limited participation. However $9^{\text {th }}$ grade 2017 results close to $70 \%$ meeting or exceeding Expectations, and $15 \%$ not yet meeting or partially meeting.

2015-2017
COMPARISON OF SOUTH ORANGE-MAPLEWOOD'S
SPRING 2017 PARCC ADMINISTRATIONS
LANGUAGE ARTS PERCENTAGES

Year over year, SOMSD Math results are more varied than ELA. 4th grade experienced an Increase to $67 \%$ meeting or exceeding expectations, up from $58 \%$ the year before, but $5^{\text {th }}$ grade saw a decrease from $59 \%$ to $54 \%$.

2015-2017
COMPARISON OF SOUTH ORANGE-MAPLEWOOD'S
SPRING 2017 PARCC ADMINISTRATIONS
MATHEMATICS PERCENTAGES

$8^{\text {th }}$ grade had a significant uptick in students not yet meeting expectations, $16 \%$ to $27 \%$.

For Algebra I, Geometry, and Algebra II SOMSD year over year shows good improvement.

## District Highlights

SOMSD's percentage of students meeting or exceeding grade level expectations in ELA in grades $3,4,5,6,7$, and 8 are higher than the state average.

SOMSD's percentage of students meeting or exceeding grade level expectations in Math in ALL grades and levels are higher than the state average.

Maplewood Middle School- 91\% of students met or exceeded expectations the ALG. I PARCC and $97 \%$ of students met or exceeded expectations on the Geometry PARCC

South Orange Middle School- 90\% of students met or exceeded expectations on the ALG. I PARCC and $98 \%$ of students met or exceeded expectations on the Geometry PARCC

Participation at the High School Level increased in Algebra I and ELA.

## District Goals

Implement an assessment system that will allow us to receive data in a timely fashion. i.e. Iready, Renaissance, NWEA, etc.

Provide intentional whole group, small group, independent work, and targeted instruction in ELA and Math

Provide library support for all students.
With Algebra I and English 10 counting toward graduation, we will focus on participation of all students as well as standards driven instruction to support student success.

## COMPARISON OF SOUTH ORANGE-MAPLEWOOD'S STUDENTS TESTED <br> SPRING 2016 AND SPRING 2017 PARCC ADMINISTRATIONS ENGLISH LANGUAGE ARTS/LITERACY

How Did xxxx Perform Overall?

## Performance Level 3

```
                                    Level }5\mathrm{ Exceeded Expectations
                                    Level }4\mathrm{ Met Expectations
                                    Level }3\mathrm{ Approached Expectations
                                    Level 2 Partially Met Expectations
                                    Level }1\mathrm{ Did Not Yet Meet Expectations
```

Your child's score 745

[^0]:    *Approximately 30,000 New Jersey students in grade 8 participated in the PARCC Algebra I assessment. Thus, PARCC Math 8 outcomes are not representative of grade 8 performance as a whole. **Level 4 and Level 5 is an indication a student is on pace to be college and career ready.
