5752.1 STUDENT POST MATERNAL ACCOMMODATIONS

The Board of Education recognizes that students may be returning to school shortly after their child's birth and may need to express breast milk during the school day.

A school counselor and student will develop a schedule that allows the student breaks to express milk. Students will check in with their teacher for attendance purposes before taking a break. The break shall be for a reasonable time.

The school principal or designee, in consultation with the school nurse and school counselor, will provide:

- 1) a place, other than a restroom, with a power source, that is shielded from view and free from intrusion from staff and students and the public, for a nursing student;
- 2) a place to store a breast pump and expressed milk (refrigerator or cooler bags).
