

8670 TRANSPORTATION OF DISABLED STUDENTS

The Board of Education shall provide transportation services for pupils with educational disabilities as required by law and dictated by the pupil's educational needs and physical welfare. The Board will provide the transportation specified as a related service in the program of Special Services approved for an educationally disabled pupil. Such transportation will conform to the pupil's Individualized Education Program (IEP) and the transportation requirements described by the Child Study Team or prescribed by the school physician. Transportation to a placement outside this district will conform to the school calendar of the receiving school, except that in the event of inclement weather, decisions regarding transportation to outside placements will be made by the District.

The transportation of an educationally disabled pupil may include such special equipment, services of aides, and arrangements for the pupil's mobility within the school building as set forth in the pupil's IEP. When necessary for the pupil's welfare, the case manager will provide the transportation coordinator and driver with specific information about the pupil.

The transportation of disabled pupils to Special Services programs approved by the Board and located outside the State will conform to guidelines established by the New Jersey State Department of Education. Such transportation services will be dictated by the pupil's IEP. The individual plan for a disabled pupil's out-of-State transportation will be submitted to the Office of the County Superintendent as required. In general, transportation of out-of-State disabled pupils will be by the most economical and expeditious mode consistent with the pupil's IEP.

State aid will be sought for the services provided in accordance with law and this policy. The Board directs that appropriate records be maintained and all relevant documentation be preserved in order that the district be properly reimbursed for the costs of transportation.
