**PUBLIC BOARD MEETING**  
**March 21, 2016**

**RESOLUTION        3396I**

**FOR ACTION**

**SUBJECT:                REDUCTION OF VEHICLE IDLING**

WHEREAS, petroleum-based gasoline and diesel fuel are nonrenewable fuels and should be used wisely and not wasted; and

WHEREAS, emissions from gasoline and diesel powered vehicles contribute significantly to air pollution, including greenhouse gases, ozone formation, and fine particulates; and a multitude of potentially harmful pollutants that can trigger an asthma attack and other ailments; and

WHEREAS, we can avoid producing unnecessary greenhouse gas emissions and exposure to air toxics by reducing or eliminating wasteful vehicle idling; and

WHEREAS, idling more than 10 seconds uses more fuel and emits more pollutants than turning a warm engine off and on again, and idling for 10 minutes uses as much fuel as it takes to travel 5 miles, and idling is not generally beneficial to a vehicle's engine because it wears engine parts; and

WHEREAS, current state law prohibits the idling of vehicles for more than three minutes and studies have shown that an anti-idling policy will save fuel, prolong engine life, and improve air quality; and

WHEREAS, moving beyond NJ's existing no-idling code of 3 minutes would significantly improve public health, air quality, and reduce costs and greenhouse gas emissions; and

WHEREAS, the American Academy of Pediatrics recommends that children's exposure to diesel exhaust particles should be decreased and that idling of diesel vehicles in places where children live and congregate should be minimized to protect their health; and

WHEREAS, vehicle idling occurs on school drop off and pick up locations and parking lots where children are more highly exposed to air pollutant emissions;

THEREFORE BE IT RESOLVED THAT the South Orange and Maplewood Board of Education supports the adoption of “Idle Reduction Zones” on school grounds, including communications to school employees, parents, students and the public to:

- Turn off school bus engines while waiting to load and to unload students
- Turn off vehicles when parents are parked and waiting to pick up and drop off children
- Installing “idle free zone” signs at school drop-off and pick-up locations
- Use newest buses for the longest routes and maintain buses properly to eliminate any visible exhaust
- Complete school-bus driver training on eliminating idling
- Encourage parent, student, faculty and staff drivers to turn off their engines after 10 seconds if they plan to remain at a location for more than 30 seconds, particularly at school drop-off and pick –up times

#### BACKGROUND INFORMATION

The District Green Team is working on a number of action items associated with the Sustainable Jersey for Schools program. One of the identified action items being addressed by the Green Team is “Anti-Idling Education and Enforcement.” Training and practices already takes place for our transportation department and individual schools have tried to reduce idling around the schools. The passing of this policy supports district-wide efforts to communicate the harmful effects of idling on children’s health and to reduce idling around the schools especially at pick-up and drop-off times.

**PUBLIC BOARD MEETING**  
**March 21, 2016**

**RESOLUTION        3396K**

**FOR ACTION**

**SUBJECT:            APPROVE USE OF BANKED CAP FOR THE 2016-2017 BUDGET**

BE IT RESOLVED THAT the South Orange and Maplewood Board of Education, in accordance with N.J.A.C. 6A:23A-10.3(b)2, approves the use of \$409,103 banked cap (2013-14 unused health care adjustment) to meet budgetary requirements for the 2016-17 school year. The funds are needed for teaching staff to meet the increasing enrollment needs of the district. The district has fully exhausted all eligible statutory spending authority and must increase the base budget in the amount of \$409,103 for the purpose of maintaining the academic program in compliance with the state and local academic goals. The additional staffing is necessary for the 2016-17 operating budget and this need must be completed by June 2017 and cannot be deferred or incrementally completed over a longer period of time.

**BACKGROUND INFORMATION**

N.J.S.A. 18A:7F-39 was amended in 2010, effective beginning in 2011-12, to allow a school district that has not been granted approval to exceed the tax levy cap by a separate proposal to “bank” the unused tax levy for use in any of the next three succeeding budget years. In accordance with N.J.A.C. 6A:3A-10.3(b) a district can request the use of “banked cap” only after it has fully exhausted all eligible statutory spending authority in the budget year. Banked cap is available from 2013-14 (\$409,103), 2014-15 (\$970,247) and 2015-16 (\$147,754). The banked cap from the earliest pre-budget year must be used first.

**RESOLUTION        3396L**

**FOR ACTION**

**SUBJECT:                APPROVE MAPLEWOOD TOWNSHIP CAPITAL PROJECT  
                              AT CLINTON ELEMENTARY SCHOOL**

WHEREAS, Maplewood Township has received a Safe Street to Schools grant to improve traffic flow around Clinton Elementary School including expansion of the Clinton driveway for improved drop-off and pick-up; and

WHEREAS, alterations to the original plans have been reviewed by the School District and Clinton administration and the new plans appear to be beneficial to the Clinton community;

NOW THEREFORE, BE IT RESOLVED THAT the Board of Education approves the Maplewood Township Capital Project and supports the work to be done on the Clinton Elementary School property; and

BE IT FURTHER RESOLVED THAT the Board of Education appreciates the support of the Maplewood Township and the efforts on behalf of the school community.

**BACKGROUND INFORMATION**

Maplewood Township received approvals for a Safe Street to School grant to make improvements around Clinton Elementary School including driveway work on the school grounds. The original plan included a circular driveway in front of the school. The Clinton community asked that consideration be given to an alternate plan that expanded the existing driveway rather than creating the circular drive. An adjusted plan based on the feedback was shared with the Clinton Administration and is anticipated to have a positive impact on the traffic situation around the school.
